28<sup>th</sup> January 2008

Dear Parents/Carers

I am absolutely delighted to attach a copy of our recent Ofsted Inspection. I am sure you have heard the news that the judgement about Sedgehill was confirmed by Ofsted as follows:

*“Sedgehill is a good school with some outstanding features”*

We were, of course, delighted to hear what we already knew!

There were many highlights during the Inspection and feedback. The recognition given to the hard work and achievements of our staff was well deserved. As a school we could not have made the examination improvements without such a dedicated staff. The Ofsted Team were also very impressed by the care and support students receive at Sedgehill and impressed by the community/family feel that includes all adults and students involved in our work.

The comments the Inspectors made about our students made us glow with pleasure and pride and some of those messages are conveyed in the report. I would like to extend the shared responsibility for our student’s achievements with you as their parents/carers and family members; they are a credit to you and on behalf of staff I would like to formally thank you for your support of our school over the period since the last Inspection – the partnership we strive to build is a key part of our success.

We are very pleased also that we were given the amazingly complimentary judgement regarding our ability as a school to improve further. This area was judged as ‘outstanding’ and confirms our belief and evidence that our students will do even better over the next few years!

The areas of development for us are embedded in our School Improvement Plan – we are taking action to ensure our Maths results continue to improve and that our teaching and learning is always aiming for the highest standard that we see in many of our classroom day in and day out.

I would also like to pay tribute to our School Governors who were praised by Ofsted and are definitely ‘good’ now!

We will continue to set our expectations high for the next phase in Sedgehill’s development. We have our new build to look forward to and some very challenging targets to meet with our Y9, Y11 and Y12/13 students.

Meanwhile enjoy a happy term.

Karen Bastick-Styles, Headteacher
